The Battle Goes On.

The Democratic party is not satisfied with the revision of the tariff and the general reduction of taxation. It had determined to have no revision and reduction if that could be avoided without slitting the party's throat on the spot. But there was so much of general fairness in the re port of the Conference Committee, the popular demand was so strong, that though the party stood against the measure it was thought impolitic to talk it to death in the Senate or filibuster the life out of it in the The Republicans were permitte to carry through revision and reduction Democrats reserving their brilliant powers for a grand hereafter, having in view ex

No measure short of a tariff bill picked bare to the bone of "revenue only" would have satisfied them. It was not their policy to be satisfied. Unless they can force the fighting on the tariff line they are with out an issue for the near-approaching pres idential campaign. In a moment of anger for which the Republican party, or certa agencies within that party, must accept a ge responsibility, the country has given the Democratic party increased power and opportunity in the next Congress. The Democratic leaders mean to make the most of that opportunity. The leaders of the Democracy are not protectionists is not that kind of a party. There is no real danger that any revolu

tionary attempt in the next Congress to destroy the protective system can succeed -though the Senate fail we can safely rely on the President to block that-but the party organs and leaders give notice that the effort will be made. Having for a pre text a thing so bad as they claim the re vised tariff to be, they can roll their eyes heavenward and declare that it shall not stand another minute if they belp it. They can at least unsettle busines frighten business men, coddle the farmer—who in all their calcuand by early rising and close attention to business bring about a state of affairs which would stand them in the stead of better and more abundant capital. If they can produce stagnation and distress—beginning now to hold the rod in terror-they will have that to point to, charging the responsibility upon the Republican party and its policy of protection. If they reason well, this will produce a desire for a change, and Demo-cratic votes will rain into the ballot boxes. The Republican party need not fear to

accept this issue now. It is on the right side. The Intelligences believes it to be the winning side. The Republican party can afford to stand by the prosperity and the hope of the country. In other times it has championed right when wrong w dominant and bade fair to endure. It has prospered because it has been right and gave no quarter to error. It will not backslide now, nor decline the challenge which the Democratic party has thrown down That challenge cuts out all middle ground He that is not for protection is for fre trade, and we need not hesitate to join issue on this clear understanding.

Gents—A number of people have been using your Bitters here, and with marked effect. In se case, a lady of over seventy years has one case, a lady of over seventy years has been sick for years, and for the past ten years has not been able to be around half the time. About six months ago she got so feeble she was helpless. Her old remedies, or physicians, being of no avail. I sent to Deposit, forty-five milea away, and gots bottle of Hop Bitters. It improved her so she was able to dress herself and walk about the house. When she had taken the second bottle she was able to take care of her own room and walk out to her neighbor's, and has improved all the time since. My wife and children also have derived great benefit from their use. W. B. HATHAWAY, Agt. U. S. Ex. Co. Trhsaw.
